MISSION

The Bridge Breast Network saves lives by providing access to diagnostic and treatment services for breast cancer to low income, uninsured and underinsured individuals in North Texas.

HISTORY

The Bridge serves uninsured and underinsured women in North Texas. In the past decade, The Bridge has served over 130,000 North Texas women and connected more than 19,000 with medical treatment. Uninsured women in the North Texas community can't afford to fight breast cancer. But, they can't afford not to. The Bridge was founded in 1992 to serve as the link between these women and the life-saving care they so desperately need. Only through the help of volunteers and generous donations from the North Texas community is The Bridge able to carry out this vital mission.
